Food and Drug Administration ,

We strongly protest the DECEPTION involved in failing to label

Genetically engineered (GE) foods. Labels on GE foods are required in Japan, Russia, and throughout Europe, yet Americans continue to be denied the right to SIMPLY AND CLEARLY KNOW WHAT IS IN OUR FOOD.

Please do your job to protect the health of the American public instead of the profit demands of corporate self-interest. Insure that GE foods are subject to pre-market testing and labeling.

Americans deserve the same protections as the rest of the world!
